

PERMA-CAST® SIERRA STAIN™ Color Guide

Butterfield Color Perma-Cast® Sierra Stains™ offer beauty and elegance to any concrete project. With 10 transparent stain colors to choose from you can achieve unlimited effects in detail, vregation and color depth resulting in visually stunning and durable concrete projects. Wide color variations, mottling, and unevenness of the color is normal and usually desired. **If these coloring effects are not desired, Perma-Cast® Sierra Stain™ should not be used.** When a more uniformly colored concrete is desired, Elements™ *Transparent Concrete Stain* should be specified.*

Due to variances in computer monitors colors should not be selected from this website alone as they may not accurately depict actual colors.
